## SCRUM Meeting 2 for Assignment Stacker

Prepared by: Freddy

Meeting Date: 4/4/2022

### Meeting Attendees

5. Tyler
6. Robin
7. Freddy
- 8.

### Meeting Agenda Items

- What was completed since last meeting
- If we'll be able to meet together during the week
- Reassign Tasks

### Status Update Since Last Meeting

#### Accomplishments:

- We created a demo course and demo assignment with a collapsable menu
- Implemented functionality of a Add Course and Add Assignment button (WIP)

#### Tasks Completed:

	Task Description	Assigned to	Completed? (yes/no)
1a	As a user in the home UI, all my courses are made visible.	Robin	Y
1b	As a user in the home UI, I can select a course.	Robin	Y
1c	As a user in the home UI, my assignments for each course are visible upon selection.	Robin	Y
1d	As a user, I should be able to set a priority for each assignment.	Freddy	N
1e	As a user in the home UI, I am able to organize my assignments by a set priority.	Robin	N
1f	As a user, my due dates for each assignment are visible.	Robin	Y

2a	As a user, I can manually add a course.	Freddy	Y
2b	As a user, I can manually add an assignment to a course.	Tyler	Y (WIP)
2c	As a user, I can set the description of a manually added course.	Tyler	(WIP)
2d	As a user, I can set the description of a manually added assignment.	Tyler	(WIP)
2e	As a user, I can set the due date of a manually added assignment.	Tyler	(WIP)
2f	As a user, I can set a priority to a manually added assignment.	Tyler	N
2g	As a user, the colors of the course tabs should be editable.	Freddy	N
1i	As a user, the assignment description and attachments can be accessed.	Tyler	Y (WIP)
1j	As a user, I can mark an assignment as complete.	Freddy	WIP
1k	As a user, I can toggle to display completed assignments.	Freddy	N

## Before The Next Meeting

### Plans:

- Fix bugs and finish Add Assignment Functionality (Tyler)
- Begin sorting by priority & Basic layouts for remaining pages (Robin)
- Customization of Course and Assignment Tabs (Freddy)

### Task Assignments:

	Task Description	Assigned to
1	As a user I am able to select between pages.	Robin
1e	As a user in the home UI, I am able to organize my assignments by a set priority.	Robin
2b	As a user, I can manually add an assignment to a course.	Tyler

---

2d	As a user, I can set the description of a manually added assignment.	Tyler
2e	As a user, I can set the due date of a manually added assignment.	Tyler
2f	As a user, I can set a priority to a manually added assignment.	Tyler
2g	As a user, the colors of the course tabs should be editable.	Freddy
1i	As a user, the assignment description and attachments can be accessed.	Tyler
1j	As a user, I can mark an assignment as complete.	Freddy
1k	As a user, I can toggle to display completed assignments.	Freddy

## Minutes from Previous Meeting

In our previous meeting (4/1) we scheduled long meeting times over the weekend where we would implement the basic functionality of our UI. This would guide our later sprints where we implement the functionality of our backend using our chosen APIs by providing an organizational structure for our data. Since this sprint has no real backend development yet, we decided that all of our collective efforts would be on the front-end development of our UI. For the main feature of our UI's design, the drop-down menus, we decided to use the bootstrap collapse component to contain various class and assignment elements.
